Summary

Motivated Computer Science student with strong analytical skills and proficiency in Python, Java, and algorithm design. Experienced in building and testing data-driven mathematical models using techniques like K-Means Clustering and PCA. Eager to apply abstract problem-solving abilities to large-scale optimization challenges in retail and supply chain.

Technical Skills

Programming & Version Control: Python (Pandas, NumPy), SQL, Java, Git, GitHub.
Optimization & Modeling: Mathematical Modeling, Algorithm Design, K-Means Clustering, Principal Component Analysis (PCA), Linear Models.
Analytics Tools: Scikit-learn, Pandas, NumPy, Streamlit.
Data Visualization & Tools: Streamlit, Matplotlib, Seaborn, Google Colab, Excel.

Projects

- Cohort-AI** | *Python, Algorithm Design, K-Means, PCA* [GitHub](#)
 - Designed an optimization algorithm to cluster learners into optimal study pods based on multi-dimensional behavioral constraints.
 - Implemented and validated mathematical models (K-Means, PCA) to replace random assignment with statistically compatible grouping.
 - Maintained and deployed the optimization application using a Streamlit dashboard, processing 500+ records in under 2 seconds.
- ClaimGuard** | *Automated Pipeline, Predictive Modeling* [GitHub](#)
 - Assisted in building data-driven models for classification, automating the analysis of raw data to assign probability scores.
 - Supported debugging, testing, and maintenance of high-throughput data ingestion pipelines for 100,000+ rows.
 - Documented model assumptions and extracted semantic risk factors to ensure clear interpretability of results.
- DocGen AI Platform** | *Algorithmic Orchestration, JSON* [GitHub](#)
 - Researched and implemented context-aware generation algorithms to enforce deterministic structural outputs and semantic consistency.
 - Architected an LLM orchestration pipeline using Gemini 2.5 Flash, automating content synthesis and reducing drafting latency by 80% through optimized prompt chaining.

Certificates

- The Ultimate Job Ready Data Science Course** - CodeWithHarry (2026) [Certificate](#)
- Generative AI with IBM Watsonx** - IBM (2025) [Certificate](#)
- Applied Machine Learning in Python** - University of Michigan (2023) [Certificate](#)
- SQL (Basic)** - HackerRank (2024) [Certificate](#)

Education

Vellore Institute of Technology
Bachelor of Technology in Computer Science • CGPA: 7.81 / 10.0

Bhopal, Madhya Pradesh | 2026
