Education

Vellore Institute of Technology <i>Bachelor of Technology in Computer Science • CGPA: 7.76 / 10.0</i>	Bhopal, Madhya Pradesh 2026
Narayana IIT Academy <i>Class XII • Percentage: 91.6%</i>	Hyderabad, Telangana 2021
Delhi Public School <i>Class X • Percentage: 86.6%</i>	Bilaspur, Chhattisgarh 2019

Skills

Languages: Python, JavaScript, SQL, Java, HTML, CSS
Frameworks & Libraries: Next.js, React, Node.js, Express.js, Genkit AI, Tailwind CSS, Pandas, NumPy
Databases: MongoDB, SQL
Developer Tools & AI Platforms: Git & GitHub, VS Code, Google AI Platform (Gemini), Google Colab
Soft Skills: Strong Problem Solving, Rapid Learning, Collaboration, Clear Communication

Projects

ClaimGuard: AI-Powered Insurance Fraud Detection <i>Next.js, React, Genkit AI</i>	GitHub
- Developed a full-stack web application that performs automated exploratory data analysis (EDA) on insurance claim datasets to identify key factors influencing fraudulent activities. - Built a dynamic and responsive user interface using Next.js, React, and Tailwind CSS, featuring interactive dashboards, data visualizations with Recharts, and secure file-upload capabilities. - Engineered a generative AI-powered backend using Google's models via Genkit to analyze claim data, predict fraud likelihood, and provide clear, human-readable explanations for its risk assessments, demonstrating strong skills in integrating cutting-edge AI into a practical business solution.	
Chaupal: Centralized Financial Management for SHGs. <i>MongoDB, Express.js, React, Node.js</i>	GitHub
- Developed a robust back-end interface for managing loan applications and resource requests within a MongoDB database. - Implemented critical data handling features including dynamic sorting, filtering, and search to allow for efficient analysis of financial data. - Engineered a CSV export functionality, demonstrating an understanding of data preparation for reporting and analysis. - Collaborated on a full-stack application, showcasing teamwork and the ability to work on complex, multi-faceted projects.	

Certificates

Applied Machine Learning in Python - <i>University of Michigan</i> (2023)	Certificate
SQL (Basic) - <i>HackerRank</i> (2024)	Certificate
Generative AI with IBM Watsonx - <i>IBM</i> (2025)	Certificate
Cyber Security Analyst - <i>IBM</i> (2025)	Certificate

Positions of Responsibility

Tech Lead, Technical Team <i>Edu4UClub, VIT Bhopal</i>	Feb 2023 – Present
Joined as a core member later promoted to Technical Lead, where I've managed and designed systems to streamline workflow and enhance club productivity.	
Core Member, PR and Outreach Team <i>Health-o-Tech Club, VIT Bhopal</i>	Apr 2024 – Present
Developed and executed public relations strategies to increase club visibility and student engagement.
