Summary

Aspiring Product Manager with a B.Tech in Computer Science and hands-on experience building AI-driven fintech and data solutions. Proven ability to analyze complex datasets, define product features, and execute cross-functional projects. Deeply interested in automated risk management and PFM systems, with a track record of developing functional prototypes for fraud detection and financial tracking. Available for immediate joining.

Core Competencies

Product Management: PRDs & User Stories, Market & Competitive Research, Cross-Team Collaboration, Agile Execution.

Fintech & Data Domains: Fraud Risk Analytics, Personal Finance Management (PFM), Alternative Data Solutions, Data-Driven Decision Making.

Technical Literacy: Python, SQL, Machine Learning (Scikit-learn), GenAI Integration.

Data Visualization & Tools: Figma, PowerPoint, Canva, Streamlit, Matplotlib, Seaborn, Google Colab, Excel.

Leadership: Strategic Planning, Project Management, and Rapid Learning.

Projects

Market Risk & Fraud Analysis Tool (ClaimGuard)

[GitHub](#)

- Analyzed datasets of 100,000+ entries and behavioral patterns to derive actionable recommendations for granular risk scoring.
- Implemented model interpretability features to translate complex algorithmic outputs into plain-language, actionable insights for business stakeholders.

Cohort-AI

[GitHub](#)

- Led the 0-to-1 development of a data-driven clustering tool, successfully executing the build and launching the first working prototype.
- Replaced random assignment processes with statistically compatible grouping by analyzing 4-dimensional behavioral data.

Personal Finance & Expense Manager

- Currently scoping and developing a data-driven personal expense tracker and analyzer to identify user spending patterns and provide actionable financial insights.
- Defining user workflows and data pipelines to categorize transactions and visualize financial health metrics.

Leadership & Outreach Experience

Public Relations & Outreach Specialist

Health-o-Tech Club, VIT Bhopal

Strategic Outreach and Engagement Specialist

Apr 2024 – Dec 2025

- Developed and executed strategic outreach plans to increase organization visibility and user engagement.
- Acted as the primary point of contact for external partners, effectively pitching club initiatives to drive participation.
- Analyzed campaign metrics and user engagement patterns to derive actionable recommendations, resulting in a measurable increase in student enrollment.

Organizational Lead (Tech Team)

Edu4UClub, VIT Bhopal

Technical Team Lead

Feb 2023 – Jan 2026

- Coordinated with technical and business teams to ensure alignment on project goals and high-quality execution.
- Streamlined internal communication protocols, tracking progress to reduce delivery timelines and improve operational efficiency.

Education

Vellore Institute of Technology

Bhopal, Madhya Pradesh | 2026

Bachelor of Technology in Computer Science | CGPA: 7.81 / 10.0
